PERSONAL STATEMENT

As I found my path, I love everything that has to do with Web design/development & softwares. Each day I'm trying to learn something new increasing my knowledge towards IT , but I do believe that practical experience is a must towards my future goals. I'm ready for visiting other countries & work for any IT company! I love working with people, especially if they have the same passion I have for what they do.

Why don't we work together? Go futher down to see why I am the man you need to hire!

02 Knowledge

Grid & Layout.
Good sense for typography.
Video Editing knowledge.
Coding WEB site.
Web usability & Effects
Database Basics

ABOUT ME

I'm a 22 years old a self-motivated,enthusiastic and conscientious person who is ambitious but also honest and reliable.At the moment I am self employed. I am quite socially active,independent,not afraid to take on multiple responsibilities and significant workload. I have a great control of English and Lithuanian languages,therefore communication with people of all age groups is not a problem. My character can be described as "perfectionist" and I courageously accept criticism. My belief is that there is no skills that cannot be acquired and perfected,thus I am a fast learner. As a part of my voluntary work for VMU student representatives council, I have had the opportunity to participate in multiple events where I had to work either in a team or by myself,taking on a lot of responsibilities. I have proven excellent communication and organisational skills. I enjoy working with people and I am a strong team player, yet I can also work efficiently on my own initiative.
